# WHAT WILL BECOME OF THE N.W.A.?

Once a powerful and respected promotion, the N.W.A. has fallen on hard times lately. Now that Ted Turner has bought the struggling Atlantic City-based promotion, if the N.W.A. falls under the ownership of WTBS, it will likely fade from sight. If it turns around and begins to make money and draw fans, Turner may have Vince McMahon looking over his shoulder. *By James*

**A** shrimp is a small, crustacean animal that lives in the water. It has a hard, protective shell called a carapace. It has two pairs of antennae and ten pairs of legs.

Shrimp are found in many different habitats, including oceans, rivers, and lakes. They are also found in freshwater environments. Shrimp are important to many ecosystems and are a common food source for many animals.

Placid enough that getting around a non-sensory dog didn't require the first laparotomy. But then Brown and his assistant, the golden-haired son, started. And a few of the other therapists took notice of things.

Not all were from outside the area, where some therapists had a decade's experience. Others began during the 1970s, when group therapy had raised its profile. Others began, unprovoked, here and there. "One of the things that goes on is that you are a therapist and you are not a therapist," says Brown. "You are a therapist and you are not a therapist."

# DIRTY DICK SLATER

Although he has starred recently in a "Good Guy" role, this sneaky wrestler has done the share of misdeeds and bad things in the past, often in need of a victory in the ring. Slater won't hesitate to return to the old, shady ways.

By  
Jerry Proser

**C**ould you picture the New York Times headlined that Bruce Slater, the former WWF wrestler, was now a good person? Slater himself is just about convinced that he's done an amazing makeover.

Now, Slater, 36, is a clean-cut, well-dressed, friendly-looking guy. He's got a "manager" in Edward James, former partner in the chain of gyms formerly owned by Slater. Slater, who was once a "bad" wrestler, who, and possibly helped to sell a billion dollars of wrestling merchandise.

"I've got a new image, and I've got a new life," he admits. "I'm no longer a wrestler and I'm not out there selling to try to get the biggest and best money in it. I'm not out there selling to get the biggest and best money in it."

Slater is selling insurance in a public square. He's not out there selling to get the biggest and best money in it.

This research, I believe, shows that there is a relationship between the amount of time that managers spend on nonfinancial reporting and the amount of time that they spend on financial reporting. Chlorine is also effective against the more resistant bacteria, such as *Mycobacterium tuberculosis*, and is useful against *Legionella*. Chlorine is used in several ways (see box).

Two other issues that affect the relationship with Argentina are a long process of debt restructuring and the internationalization of the Argentine debt. The internationalization of the debt, in turn, will have a major impact on Argentina's and Argentina's ability to raise funds from the international capital markets.

Continuing education kept at a high level for members, said Jones. "I was able to experience some of the possibilities that are out there," he noted, emphasizing the importance of management, "which is always challenging for those who are in the field," he said. Jones said that he was particularly interested in the fact that the program was not just a "one-time" event, but a "continuous" process, and that it was "not just a one-time event, but a continuous process." With rapid growth in a market, several businesses are attracted toward the same area of the market as a niche. When the businesses happen to have complementary products or services, the customers are more likely to purchase a complementary product or service from the same business. When the businesses happen to have complementary services, customers are more likely to use both services from the same business. This is why the business owner should consider the business's location carefully.

# NORTHWEST NEWS II: WRESTLING ACTION FROM CANADA

By Stuart Ramp

Since our last report, things have gotten wilder than ever in the Great Northwest. WWWF's (and WCW's) takes you on another guided tour of the ring action in this wrestling hotbed.

**W**EST COAST WRESTLING IS THE MOST FRUSTRATINGLY CONSISTENTLY UNCONVENTIONAL and volatile ring scene. The franchise-owned "Big Country Wrestling" has a continuous stream of wrestlers that are brought in for the week, and the "Superstars" from around the world are the "Golden Warriors" from the former, long-defunct National Wrestling Alliance. The scene is a mix of talent and entertainment, with a focus on the "Golden Warriors" from the former, long-defunct National Wrestling Alliance. # OWEN HART UPDATE

By Timothy O'Neil

**O**WEN HART'S RECENT return to the ring has been a mixed bag. He's certainly been successful in the ring, but his behavior outside of it has been less than ideal. In this update, we'll take a look at Hart's recent career and his current status in the wrestling world.

Hart's return to the ring was a surprise to many, as he had been out of the business for several years. He made his debut in 1994, and since then, he has been a mainstay in the industry. He has won several championships, including the WWF Championship and the WCW Championship. He has also been a part of several successful storylines, including his feud with Bret Hart and his alliance with the Undertaker.

Investment in social infrastructure that creates family and community linkages is important. Local support is important. Local business, local health professionals and education and other community-based organizations must become agents of change. Many health problems in the United States are preventable. They require the coordinated efforts of all health sectors, including attention to the social factors that often contribute to the risk of disease. It is a major responsibility of the public to be engaged in these efforts, whether they are local, state, or nationwide programs designed to improve the health of the community.

The rising incidence suggests, instead of the increasing trend traditionally associated with aging, people are becoming "older" biologically even without a corresponding increase in chronological age. It is likely that by sharing with a well-defined ethnic group, Hispanics share a common biological predisposition to many prevalent disorders. Specifically, a high degree of ethnic homogeneity is evident among the Hispanic population, particularly for

• **Chinese sleeping posture** •  
Healthy posture is a very important consideration for health. In the U.S., people usually go to bed lying on their back. When sleeping on their back, they usually put their arms at their sides. However, in China, people usually go to bed lying on their side. When sleeping on their side, they usually put their arms in front of them. This is because in China, people usually sleep on a hard surface, such as a mat on the floor. When sleeping on a hard surface, it is better to lie on your side than on your back. This is because when you lie on your back, your spine is in a straight line, and this can cause back pain. When you lie on your side, your spine is in a natural curve, and this can help to prevent back pain.

**T**HE FIRST THING I noticed in Boston that afternoon on the flight, at about 10:30 a.m., was the team approach to the Bruins' 7-0 beating of the L.A. Kings last season. Assistant General Manager Dave Cole was brainstorming, brainstorming, brainstorming throughout the ride.

On the flight to Boston, I sat next to him in the aisle. In the past two years, Cole has deflected our probing questions on this team, which came from Fox Cities, Wis., and the Boston Bruins, and even the "Boston Winter Olympics" where the team, the Bruins, had not yet moved into the arena, the Boston Garden.

The Bruins' strategy, however, has been to fight the Bruins' winter. According to Dave Cole, assistant General Manager, the Bruins' strategy is to fight the Bruins' winter. The Bruins' strategy is to fight the Bruins' winter. The Bruins' strategy is to fight the Bruins' winter.

It seems obvious that the 1991 election in the United States will be the first presidential election during the 20th century during which the media will be able to report on the campaign in real time. Since then, it will begin to question the long-held idea of the "campaign" as the time when candidates "go out there" and make their case. It is not as simple as that. Candidates must make announcements in the past, and many have done so. Candidates are not

Some health professionals and workers may be responsible for one form of abuse, while others may be responsible for another. It is important to understand the different types of abuse and the different people who may be responsible for them. This will help you to identify the type of abuse you are experiencing and to take the appropriate action.

Charming, the attraction of these houses has been growing in time. What is more, for the 1980s the increasingly widening gap between the rich and the poor has been widening again. The 1980s have been a decade of widening income inequality in America. The rich have gotten richer, and the poor have gotten poorer. The widening gap between the rich and the poor has been a major factor in the rise of the New Right. The New Right is a political movement that has emerged in the 1980s. It is a movement that is based on a number of principles. One of the main principles of the New Right is the belief in the importance of the family. The New Right believes that the family is the basic unit of society and that it is the responsibility of the government to protect the family. Another principle of the New Right is the belief in the importance of the economy. The New Right believes that the economy is the source of wealth and that it is the responsibility of the government to protect the economy. The New Right also believes in the importance of the military. The New Right believes that the military is the source of power and that it is the responsibility of the government to protect the military. "I really wanted to be a part of the United Nations and have a chance to meet the world leaders," I said. "I was disappointed when I didn't get selected, although I wish I did." I was chosen—last August, I left home without money, and I got some money on my way in the form of a loan after I had given the "My Dream" speech. I was given a \$100,000 scholarship.
